TO FORM A CLUB

Meeting to Discuss Market Matters to be Held Monday Afternoon

CURB MARKET SUCCESS

At 2 o'clock on Monday a meeting of women of Charleroi with Mrs. John S. Flannery, the Pittsburgh market expert, who is at the head of the Pittsburgh Marketing club, will be held at the Charleroi Business Men's Association rooms. The result will be if indications go for anything, that a marketing club will be formed in Charleroi that will work to the advantage of the women who compose the buyers of thousands of households, and the growers who sell. It will constitute a feature in connection with the Charleroi curb market.

This morning at the curb market women were personally told of the meeting to be held Monday afternoon, and it is believed there will be a good number present. It is declared by those in close touch with market affairs that marketing clubs are today constituting a big factor in many cities in lowering the cost of living.

Had anyone having an idea that the Charleroi curb market is not proving a success visited Sixth street and Fallowfield avenue this morning any time between 7 o'clock and 8:15, he would have been thoroughly convinced of his error. Today was probably the most successful day of the curb market since its institution.

There were probably 20 wagons in all on the scene, and as usual a number wheelbarrowed their garden truck or carried it in baskets to the market. Selling was rapid. Apples went like peanuts at a circus.

One woman who has been coming to the curb market with wagon loads of produce started down Sixth street this morning, her wagon filled with apples, milk and some produce of other kinds. She was waylaid at the corner of Lincoln avenue and Sixth street and there an improvised curb market was held. For the first time this morning wagons were lined up near the curb at Washington avenue. The marketing place has been between McKean and Fallowfield avenues largely but gradually the farmers and gardeners are going above Fallowfield.

SOCIALISTS TO GIVE LECTURES

Two Socialist lectures will be given at Eldora Park Sunday afternoon in the regular Sunday course, one by Louis Goaziou, of Charleroi, and one by Leroy Bruce of Allentown. Both are candidates for the legislature and both will speak on campaign issues.

To Convince Objectors

Persons Favoring Old Site for Brownsville Bridge are to Argue by Pressure

Business men of Brownsville and West Brownsville who favor erecting the proposed county bridge spanning the Monongahela on the old site are getting tired waiting for the objectors to the site to "come to time," and within the next few days will subject them to pressure that possibly will help them in reaching the conclusion that after all the old site is the best. The business men argue that the three towns of Brownsville, South Brownsville and West Brownsville are suffering unusually from the lack of proper facilities by which to cross the river. Not long ago the county commissioners of the two counties decided to build the bridge on the old site. They announced their plan, and those in favor of a new site stopped proceedings.

DEALERS ARRESTED

Attention Called to Action at Pittsburgh by State Food Agents

MUST KEEP FLIES AWAY

Attention has been called by local officials to the method being taken in Pittsburgh to enforce the State law requiring dealers to keep food stuffs they have on sale from contamination. Three dealers were arrested in Pittsburgh Friday. At the same time a half dozen milk dealers were arraigned before a magistrate charged with selling tainted milk or skimmed milk for the pure article.

According to the law food stuffs on display must be kept covered, to prevent flies carrying contamination from inhabiting them. Health Officer Darby states that he has been urging local dealers to obey the law. If they do not the chances are some of them will be arrested at the instance of the State Food and Dairy department, the same as the Pittsburgh dealers.

Men's strictly tailored suits, regular \$22.50 values for \$12.50. Just have it charged. The People's Store, 536 Fallowfield avenue, Charleroi, Pa. 309 12

NAMES ARE ASKED FOR SEALERS TO MEET

Chairman Wasson Wants Finance Committee Appointed

LETTER TO CAROTHERS MIKESSELL TO ATTEND

State Chairman Henry G. Wasson of the Republican party is inviting the chairman of the various counties of the western end of the State to send to him at once the names of prominent men of the county, who may be placed on the finance committees and in addition the names of influential men who may be depended upon to act on an auxiliary committee for the purpose of rounding up the campaign.

County Chairman C. E. Carothers of Washington county will respond to the letter sent out by Chairman Wasson by furnishing the names of representative men to represent the county on the committee which Chairman Wasson suggests. The present intention it is stated is to have the members of the finance committees work in their respective counties and districts.

In Washington county the plans of the "Bull Moose" party are not attracting a great deal of attention as yet. What the movement may mean in the future, of course can only be guessed.

There are different opinions as to what action should be taken by the electors of the state as to whom they shall cast their ballot for in the electoral college, providing the state goes Republican.

Chairman Wasson thinks that it would be a crime for the electors to cast their votes for Roosevelt if they were elected for Taft, but the chairman admits there is no way of forcing the electors off the ticket, and unless they can be persuaded to withdraw, nothing can be done to pull them off.

The Bull Moose supporters are leaving for Chicago and during the next week a most interesting time is anticipated as the scene of the new party launching promises to be one long to be remembered and the excitement, so far as the Bull Moose delegates are concerned, is going to be as interesting as that displayed in the Republican convention in Chicago in June.

Barney Harkins, private secretary to William Flinn, is already in Chicago making preparations for the Allegheny county delegations and he intimates that nothing is being left undone to make the approaching convention one of the more surpassing interest than the convention at which Taft was nominated.

OFFICERS CHARGED WITH EXTORTION

Austrians Accuse Justice of the Peace and Constable of Serious Wrongdoing

Following an investigation made by the Austrian Consul in Pittsburgh Justice of the Peace Archie McConaughy of Cherry Valley, Smith township, and Constable John Riley of McDonald, were arrested Friday by County Detective William McCleary on charges of extortion and larceny by bailer.

It is claimed that the Justice of Peace extorted money from foreigners in the locality who were arrested and brought before him. It is stated that he settled cases in his own court at fees beyond those permitted by the law. This came to the notice of the Austrian Consul in Pittsburgh, who made an investigation in conjunction with District Attorney Richard Miller of Washington county.

No Quorum; No Meeting. There was no quorum present at the Business Men's Association rooms in the Kirk & Clark building Thursday night for the regular meeting of the association, and no meeting was held.

Leave your order for brick ice cream for Sunday with Carroll, the druggist. 308-31

O. Evans Mikesell, sealer of weights and measures for Washington county, Friday received a communication from James Sweeney, Chief of the bureau of standards of the state department of internal affairs, advising Mr. Mikesell that a conference of sealers of weights and measures of the entire state would be held at Harrisburg on the morning of September 12. The principal object of the meeting is to discuss plans for the organization of a state association.

In addition to the plans of organization to be taken up a committee will probably be named on the matter of legislation, the idea being to have laws enacted which will be of aid to the sealers in their work. L. A. Fischer, chief of the division of weights and measures of the national department of commerce and labor and other well known men will be among those to make addresses at the conference.

Mr. Mikesell has expressed his intention of attending the meeting.

UNION PICNIC IS CONSIDERED

Eldora Park Much Favored by Sunday Schools for Second Annual Affair

Eldora Park was much favored as the place for the holding of the proposed union Sunday School picnic at a meeting held by representatives of the Protestant Sunday Schools Friday night at the Washington Avenue Presbyterian church. The result of the meeting was that the various representatives were instructed to report back to their Sunday Schools and receive instructions. Suggestions were made such as securing a boat for an excursion, or holding a basket picnic in the country. Quite a good offer has been made by the Eldora Park management to the Sunday School people.

MAKES ARRANGEMENTS TO HANDLE TRAFFIC

Every possible effort will be made by the Pittsburgh Railways Company to handle the largest crowd in the history of Brunot's Island for the Grand Circuit races there next week, August 5 to 9. Cars will be run every half hour from Charleroi and Washington during the week and cars will be run from Sixth street and Penn avenue over Federal street to the Brunot's Island ferries at Ontario street. A special line will also be run from the Lake Erie depot on West Carson street to the Brunot's Island ferry. These special cars will be marked, "This car to Brunot's Island races."

The half hour service from Washington and Charleroi will begin at 9 o'clock each morning and cars will be run every minute from Sixth street and Penn via Rebecca street and Union line to Ontario street, where ample service has been provided by the driving club. Many additional cars will also be run on this line from 11:30 o'clock each morning, if the traffic warrants it.

Seven Killed in the Mines NO WATER TO CURB

Coroner Heffran Reports Investigation of Seventeen Deaths During July

Coroner Heffran did not have a very busy month during July. Seventeen deaths were investigated. There was a toll of seven in the mines. Two were killed by a fall of coal, two were run over by mine cars, one by a mine motor, one was electrocuted and one was crushed by a fall of slate. Only one employee of a railroad was killed during the month, but two male trespassers and one female trespasser were run down and killed by trains. There was one suicide by shooting. Due to the floods of the month there were two drownings. One homicide case was investigated, but the party that died had been shot in Fayette county and the proceedings were certified to that county. There was one death due to a fall of a tree, a young Pittsburgh man killed while in camp near Boyce station.

TO BEGIN CAMPAIGN

Efforts to be Made to Unionize United States Steel Workers

PITTSBURGH A CENTER

Pittsburg and Chicago are to be the centers of a nation-wide movement to organize the workingmen of the steel industry, according to an announcement just made by the American Federation of Labor. Organizers are to be sent to every important mill in the country, no discrimination being shown as between mills of the United States Steel Corporation and those of independent concerns. This would probably include the Monessen and Donora mills, which are non-union.

Next Monday has been set as the day for opening the campaign. Efforts will be made to secure the attendance of the workmen at public meetings to be held in many parts of the country. In Pittsburgh the matter will be largely in the hands of the Amalgamated Association of Iron, Steel and Tin Workers, headed by President John Williams.

A circular signed by President Gompers and Frank Morrison, president and secretary respectively of the Federation, is being widely circulated. It announces that every class of labor, from the skilled work men to the lowest-paid labor in the mills, is to be taken into the union.

It is probably something more than a coincidence that the movement is launched immediately following the making of the report of the Stanley Investigating Committee. The labor leaders believe that report will be a powerful aid to their success. The pending Presidential campaign and the fact that there is a great scarcity of labor in many departments of industry are regarded as additional favorable circumstances.

Carroll's Drug Store will have Brick Ice Cream Sunday. Leave your order now. 308-13

Charleroi Water Company Pleads Against Councilmanic Idea

ARE ON ANXIOUS SEAT

Representing the Charleroi Water company, H. W. Pollock, general superintendent, was present before council Friday evening, with a plea to have local objections removed to the proposed consolidation of the Charleroi, Monessen and Donora Water companies. Realizing that the objection which council has fathered might put an end to any schemes of consolidation the company may have Superintendent Pollock elaborated to a very considerable extent on the benefits that would accrue to Charleroi should the proposed consolidation go into effect. The result was that the matter was placed in the hands of the water committee to investigate and to report to council.

Charleroi's objection to the consolidation lies in an effort to have the water company furnish water, already piped, to the curb line for individual users instead of only to the middle of the street. A hearing is to be held on the consolidation matter before the State Water Supply Commission on August 20, when the local objection is to be heard.

Superintendent Pollock plead that Charleroi would be the main distributing point for the boroughs of Monessen and Donora, and that "dead ends" of all water pipes at the northern end of this borough would be abolished, the pipes to be connected up through all streets at the north side. "Dead ends" are the plugged ends of mains. In addition Mr. Pollock said, new pipes would be installed in some of the streets where there are now none.

It was stated by Superintendent Pollock that the Charleroi Water company would be willing to furnish water to the curb line, if State legislation could be secured that would compel other companies in the State to do the same.

Council will meet next Tuesday and the water committee will endeavor to have a report ready on the question of removing objections to the consolidation scheme.

BIG PRIZE MONEY AT WASHINGTON FAIR

Patrons of the Washington Fair will have an opportunity to attend a \$15,000 exhibition at the grounds of the association at Arden September 10, 11, 12 and 13. Tenderness to the Aged Nothing is more beautiful or Christ-like in the character of the young woman than a kind and gentle regard for the old, says the Catholic Universe.

Age is a season of physical infirmity of mental retrospection, of shattered dreams and earthly disappointments. No more for the old is there a glimmer in the rolling stars no forefreshness in the spring, no more a triumph in the years.

Four-year-old Dick had made an important discovery that his hair would pull out if enough force was exerted, and was absorbed in proving the fascinating find on his forelock.

"Dickie! Dickie!" she cried. "You mustn't do that!" "Why?" demanded Dickie, with the cynicism of childhood.

"Because the Bible says that all your hairs are numbered—and if you pull any out you'll make a lot of extra bookkeeping for the angels."

Aunt Sarah, cook in a Richmond family, took home a dish of macaroni from her mistress' table for the edification of her own family.

"Heah, yo' chillun" called out Aunt Sarah, "what yo' all doin'?" "We's a-huntin'," was the reply, "fo' some mo' of dem macaroni worms."

"The young man produced a small square box from his pocket," says the Ladies' Home Journal.

"I have a present for you," he began. "I don't know whether it will fit your finger or not, but—"

"Oh, George!" she broke in, "this is so sudden! Why I never dreamed— But just then George produced the gift—a silver thimble—and it got suddenly cooler in the room."

Gaynor on Socialism. The Philadelphia Ledger recently sent a reporter to interview Mayor Gaynor, of New York, about Socialism, and the following are a few of the views expressed by the Mayor:

"Most people think that the socialistic idea or propaganda is to divide all the property up into little bits and give each one his little bit. That is what they think Socialism is. Instead of dividing property up and giving each one his bit, it is that all property and means and implements of production be massed in one unit and put in charge of the State or of Government. The Gov-

ernment would own and run everything, and we would all be employees of the government.

"If the State owned and controlled everything, and we were all employed by the State and all paid so much a day, and all competition and emulation was abolished, I have a notion that all of us would be doing as little in a day as possible.

"Prosperity is the highest production the community is capable of, consistent with the physical, moral and mental health of its members, accompanied by a just distribution of the total product among the producers.

"You know that to have prosperity we must have a product of industry large enough to give prosperity, namely, to give people the necessities and luxuries of life. If everybody be put on a level and all competition abolished, I think the total product would go down steadily, and that the result would be scarcity, and poverty, not to say lack of refinements and luxuries. What do you think about it?"

Wonder if the Bull Moose party considers the Presidential chair a nice thing to think about during vacation.

One need only consider the kind of weather we're having to reach the conclusion that this is vacation time at the weather works.

With Bill Flinn to cause trouble politically, the work of the hump proceeding annoyingly well and the ball team losing oftener than it wins, Pittsburgh has enough to depress a better city than it is.

Article IX. No obligations which have been heretofore issued, or which may hereafter be issued, by any county or municipality, other than Philadelphia, to provide for the construction or acquisition of waterworks, sewers, underground railways or street railways, or the improvements thereof, shall be considered as a debt of a municipality, within the meaning of section eight of article nine of the Constitution of Pennsylvania or of this amendment, if the net revenue derived from said property for a period of five years either before or after the expiration thereof, or where the same is constructed by the county or municipality, or if the completion thereof, shall have been sufficient to pay interest and sinking-fund charges during said period upon said obligations or if the said obligations shall be secured by liens upon the respective properties and shall impose no municipal liability upon said properties, as herein provided. When the taxable property of a municipality is insufficient to provide for the interest and sinking-fund charges, according to the terms of said obligations, shall have been completed and in operation for a period of one year; and said municipalities and counties shall not be required to levy a tax to pay said interest and sinking-fund charges, as required by section ten of article nine of the Constitution of Pennsylvania, until after said properties shall have been operated by said counties or municipalities during said period of one year. Any of the said municipalities or counties may incur indebtedness in excess of seven per centum, and not exceeding ten per centum, of the assessed valuation of the taxable property therein, if said increase of indebtedness shall have been assented to by three-fifths of the electors voting at a public election, in such manner as shall be provided by law.

NOVEL PLACING OF SPAN CAUSES UNIVERSAL TALK

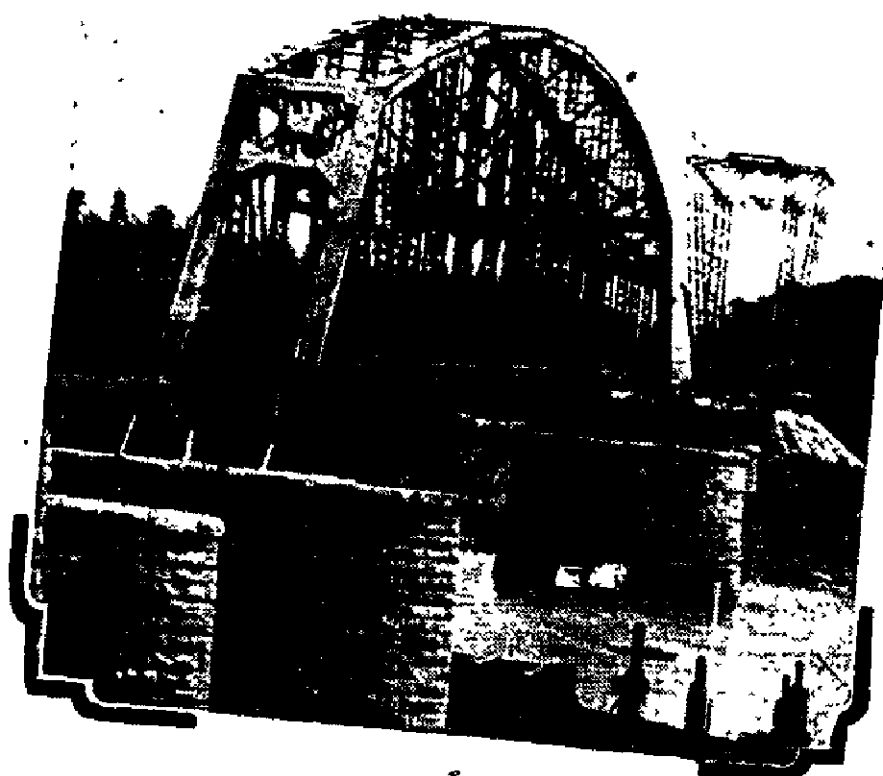

Engineering Feat at New Geneva Regarded as Remarkable—Barge to Be Used at Brownsville Bridges

ROAD TO CHARLESTON

Because of its being practically the first work of the kind ever done in the country, and because of the difficulties surmounted in its accomplishment, the feat of floating by barge the ponderous middle span of the new Monongahela railroad bridge at New Geneva into place, has attracted universal attention. That the experiment which proved so successful will be put into general use is the prediction of expert bridge engineers everywhere.

The bridge complete is 950 feet long. The middle span alone is 475 feet long. During the past several weeks the work of building the span has been going on. It was built on the end span shown at the right side of the top picture. One end rested on the derrick of the barge. When the time came the barge was simply floated across the river. So nicely had the engineers calculated that the bridge end was but a little above its proper level when it reached the opposite side of the river. Air chambers were pumped out in the barge and the span sank to its proper level. The channel was blocked only a little over 10 hours.

Probable two of the chief and most difficult operations of the experiment were constructing the barge, which is one of the largest all-steel barges ever built and transporting it up the river. Charleroi and North Charleroi people feel a peculiar interest in the operation at New Geneva for the reason that the government force, with headquarters at North Charleroi looked after the work of

its transportation. Coffers had to be built at Lock No. 66 and No. 7. The crew of the Steamer Slackwater attended to the work of taking the big barge through, or more strictly speaking, over these two locks.

The barge, which was the product of the American Bridge works at Ambridge will not be dismantled of its derrick, it is stated, but will be taken care of just as it is. Eventually there will be a span of a new bridge to be put across the Monongahela river at Brownsville by the Pennsylvania railroad. It is expected that the barge will be used in this work. Also a bridge will be constructed between Brownsville and West Brownsville by Fayette and Washington counties and the barge will be called into requisition once more. If these are all the bridges along the river under course of construction at the time, the probabilities are that the barge will be dismantled, and converted into a merchandise barge, for the carrying of hardware, wire and other products of the same nature. The barge has a number of air chambers constructed in its hull, which may be pumped out or filled at will. These air chambers made possible the operation at New

Geneva. Faulty construction of any one of them, it is believed might have meant a total failure of the experiment and sent the heavy bridge span crashing to the bottom of the river, a wreck.

J. C. Bland, engineer of bridges for the Pennsylvania lines west of given credit for carrying out the new plan of putting the middle span in position. The bridge forms one link of the continuous line which is well on its way to completion between Brownsville and Buckhannon, W. Va. When the line is opened a virgin field will be opened up, a fact that the coal operators have well noted. In effect the result will be a short route through from Pittsburg to Buckhannon. From Buckhannon there is a road—the Coal and Coke—running through to Charleroi, W. Va., on an easy grade, and through an excellent territory. The importance of these connections can readily be surmised. Charleroi has numerous openings by railroad east and west.

The construction of the Buckhannon and Northern has proceeded from the state line south to Buckhannon, in spite of legal difficulties, until it is now almost completed. Its cost will

approximate \$2,500,000. The bridge over the Monongahela entailed an expenditure of \$320,000 and the center span put into place cost \$50,000.

AMONG THE THEATRES

THE PALACE—CHARLEROI.

One of the best pictures ever presented at the Palace Theatre, and everybody knows it has had some exceptionally good ones, was shown on Monday night of this week. The name of the picture was "Rock of Ages." It was produced by the Vitaphone people, with the scenes laid by the seaside. A woman loves a sailor lad. On a trip to sea he loses his life and his body is washed ashore. She plants a cross manacured by her own hands at his grave. Her handiwork attracts a noted sculptor who persuades her to enter a studio. She comes in touch with the great wicked world, and when rumors reach her father, who refuses her admittance to her home when she returns broken in health. To prove herself she goes to work among the poor and in nursing a typhoid fever patient, she contracts the disease. In delirium she wanders through a driving rain to the church door. Unable to gain admittance she wanders along the seaside to the cross she had placed for her lover. Torrential rains pour down from the heavens and the tide rises. The scene closed with the young woman hanging about an arm of the cross, her spirit gone, and the tide enveloping her.

As usual the Pathe weekly was an entertaining feature on Wednesday, showing events occurring over the this week were: "The Understudy," "The Thief" and "The Ranger's Reward," "The String of Beads" and "The Empty Grave."

THE COYLE—CHARLEROI

This might easily be considered a feature week at the Coyle, where there were unusual motion pictures shown. Probably the most enjoyed picture of the entire week was "Winning the Latonia Derby." An Imp film, this two reel photoplay production was given on Wednesday night, and good sized crowds witnessed it. The picture was gorgeously spectacular, replete with thrilling situations, with an ingenious plot interwoven.

Another unusually strong picture was "The Players." Florence Lawrence, one of the most noted actresses for a season with the Vitaphone film producers, was in the leading role. The old, old story of love was told, with the principals as members of a theatrical troupe. Comical mixups put spice to the drama. Holding the boards with "The Players" Thursday night was the film, "Young Wild West Trapping a Tricky Rustler." In this the hero rescued his sweetheart from a perilous situation, in which a cattle rustling campaign and a lively race to catch the thieves formed a thrilling and masterful picture.

THE STAR—CHARLEROI

With a beautiful love story and a suffragette parade as the basis, an unusual picture was presented at the Star theatre on Monday of this week under the title "Votes for Women." It was a Reliance film in two reels and was of such quality as to make it one of the finest presentations not only of this week but of many weeks.

"The Colonel's Peril," a brilliant military drama produced by the Bison film company proved an exceptionally interesting attraction. It was produced on Thursday. A tale of love, at first opposed by the young man's father and a hard battle in which the young man saves his father from death, with the climax in a

CHURCH LEAGUE SCHEDULE STRONG FOR NEXT WEEK

The third game of this week was postponed by bad weather Friday night. It was to have been played between the Methodists and Baptists. Good games are promised the coming week. The league season will not last so very much longer. Consequently, the fight for first place is growing warmer.

On Monday of next week the First Presbyterians and Christians are scheduled to fight it out. A victory by the First Presbyterians will put them in first place. If they are beaten the Catholics will go in first. Tuesday the Washington Avenues and Methodists play, and Wednesday the postponed game between the First Presbyterians and the Washington Avenues will be decided. Thursday the Baptists and Catholics will fight it out and Friday the Lutherans and Episcopalians will play.

A game between the Episcopalians and Christians has been awarded to the Christians, changing the standing.

COLLEGE MAN WINS HEIRESS AT WASHINGTON

Just 17 days after entering her twenty-second year and receiving her share of the millions left by her father, Miss Florence Elizabeth Iseman, daughter of the late David Iseman, oil king and banker of Washington, became the bride Friday night of Warren C. Burchinal, a sophomore at Washington-Jefferson College and the football cheer leader.

Miss Iseman and Mr. Burchinal, who is 22 years old and the son of H. A. Burchinal of Uniontown, Pa., were married at the magnificent Iseman home by Rev. Dr. Matthew Ruthertford, teacher of Bible in Washington and Jefferson College and pastor of the Third Presbyterian Church of Washington. The wedding was a quiet one.

Miss Iseman was one of the most popular young women of Washington. She attended Washington Seminary and later went to the Bennett School, Milbrook-on-Hudson, N. Y., where she graduated in 1909. Following her graduation there she went to Europe, where she studied in Italy, France and Switzerland, returning to her home in Washington in July, 1911.

It was at a football game that she first saw Warren Burchinal. Burchinal was a cheer leader and stood before the student body at the games and brought out the college yells. Miss Iseman first met Burchinal early last October.

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. TO FORM A CLUB

Meeting to Discuss Market Matters to be Held Monday Afternoon

CURB MARKET SUCCESS

At 2 o'clock on Monday a meeting of women of Charleroi with Mrs. John S. Flannery, the Pittsburgh market expert, who is at the head of the Pittsburgh Marketing club, will be held at the Charleroi Business Men's Association rooms. The result will be if indications go for anything, that a marketing club will be formed in Charleroi that will work to the advantage of the women who compose the buyers of thousands of households, and the growers who sell. It will constitute a feature in connection with the Charleroi curb market.

This morning at the curb market women were personally told of the meeting to be held Monday afternoon, and it is believed there will be a good number present. It is declared by those in close touch with market affairs that marketing clubs are today constituting a big factor in many cities in lowering the cost of living.

Had anyone having an idea that the Charleroi curb market is not proving a success visited Sixth street and Fallowfield avenue this morning any time between 7 o'clock and 8:15, he would have been thoroughly convinced of his error. Today was probably the most successful day of the curb market since its institution.

There were probably 20 wagons in all on the scene, and as usual a number wheelbarrowed their garden truck or carried it in baskets to the market. Selling was rapid. Apples went like peanuts at a circus.

One woman who has been coming to the curb market with wagon loads of produce started down Sixth street this morning, her wagon filled with apples, milk and some produce of other kinds. She was waylaid at the corner of Lincoln avenue and Sixth street and there an improvised curb market was held. For the first time this morning wagons were lined up near the curb at Washington avenue. The marketing place has been between McKean and Fallowfield avenues largely but gradually the farmers and gardeners are going above Fallowfield.

To Convince Objectors

Persons Favoring Old Site for Brownsville Bridge are to Argue by Pressure

Business men of Brownsville and West Brownsville who favor erecting the proposed county bridge spanning the Monongahela on the old site are getting tired waiting for the objectors to the site to "come to time," and within the next few days will subject them to pressure that possibly will help them in reaching the conclusion that after all the old site is the best. The business men argue that the three towns of Brownsville, South Brownsville and West Brownsville are suffering unusually from the lack of proper facilities by which to cross the river. Not long ago the county commissioners of the two counties decided to build the bridge on the old site. They announced their plan, and those in favor of a new site stopped proceedings.

DEALERS ARRESTED

Attention Called to Action at Pittsburgh by State Food Agents

MUST KEEP FLIES AWAY

Attention has been called by local officials to the method being taken in Pittsburgh to enforce the State law requiring dealers to keep food stuffs they have on sale from contamination. Three dealers were arrested in Pittsburgh Friday. At the same time a half dozen milk dealers were arraigned before a magistrate charged with selling tainted milk or skimmed milk for the pure article.

According to the law food stuffs on display must be kept covered, to prevent flies carrying contamination from inhabiting them. Health Officer Darby states that he has been urging local dealers to obey the law. If they do not the chances are some of them will be arrested at the instance of the State Food and Dairy department, the same as the Pittsburgh dealers.

Men's strictly tailored suits, regular \$22.50 values for \$12.50. Just have it charged. The People's Store, 536 Fallowfield avenue, Charleroi, Pa. 30912

NAMES ARE ASKED FOR

Chairman Wasson Wants Finance Committee Appointed

LETTER TO CAROTHERS

State Chairman Henry G. Wasson of the Republican party is inviting the chairman of the various counties of the western end of the State to send to him at once the names of prominent men of the county, who may be placed on the finance committee and in addition the names of influential men who may be depended upon to act on an auxiliary committee for the purpose of rounding up the campaign.

County Chairman C. E. Carothers of Washington county will respond to the letter sent out by Chairman Wasson by furnishing the names of representative men to represent the county on the committee which Chairman Wasson suggests. The present intention it is stated is to have the members of the finance committee work in their respective counties and districts.

In Washington county the plans of the "Bull Moose" party are not attracting a great deal of attention as yet. What the movement may mean in the future, of course can only be guessed.

There are different opinions as to what action should be taken by the electors of the state as to whom they shall cast their ballot for in the electoral college, providing the state goes Republican.

Chairman Wasson thinks that it would be a crime for the electors to cast their votes for Roosevelt if they were elected for Taft, but the chairman admits there is no way of forcing the electors off the ticket, and unless they can be persuaded to withdraw, nothing can be done to pull them off.

The Bull Moose supporters are leaving for Chicago and during the next week a most interesting time is anticipated as the scene of the new party launching promises to be one long to be remembered and the excitement, so far as the Bull Moose delegates are concerned, is going to be as interesting as that displayed in the Republican convention in Chicago in June.

Berney Harkins, private secretary to William Flinn, is already in Chicago making preparations for the Allegheny county delegations and he intimates that nothing is being left undone to make the approaching convention one of the more surpassing interest than the convention at which Taft was nominated.

OFFICERS CHARGED WITH EXTORTION

Austrians Accuse Justice of the Peace and Constable of Serious Wrongdoing

Following an investigation made by the Austrian Consul in Pittsburgh, Justice of the Peace Archie McCaughy of Cherry Valley, Smith township, and Constable John Riley of McDonald, were arrested Friday by County Detective William McCleary on charges of extortion and larceny by bail.

It is claimed that the Justice of Peace extorted money from foreigners in the locality who were arrested and brought before him. It is stated that he settled cases in his own court at fees beyond those permitted by the law. This came to the notice of the Austrian Consul in Pittsburgh, who made an investigation in conjunction with District Attorney Richard Miller of Washington county.

SEALERS TO MEET

State Conference of Officials to be Held on September 12

MIKESSELL TO ATTEND

O. Evans Mikesell, sealer of weights and measures for Washington county, Friday received a communication from James Sweeney, Chief of the bureau of standards of the state department of internal affairs, advising Mr. Mikesell that a conference of sealers of weights and measures of the entire state would be held at Harrisburg on the morning of September 12. The principal object of the meeting is to discuss plans for the organization of a state association.

In addition to the plans of organization to be taken up a committee will probably be named on the matter of legislation, the idea being to have laws enacted which will be of aid to the sealers in their work. L. A. Fischer, chief of the division of weights and measures of the national department of commerce and labor and other well known men will be among those to make addresses at the conference.

Mr. Mikesell has expressed his intention of attending the meeting.

UNION PICNIC IS CONSIDERED

Eldora Park Much Favored by Sunday Schools for Second Annual Affair

Eldora Park was much favored as the place for the holding of the proposed union Sunday School picnic at a meeting held by representatives of the Protestant Sunday Schools Friday night at the Washington Avenue Presbyterian church. The result of the meeting was that the various representatives were instructed to report back to their Sunday Schools and receive instructions. Suggestions were made such as securing a boat for an excursion, or holding a basket picnic in the country. Quite a good offer has been made by the Eldora Park management to the Sunday School people.

MAKES ARRANGEMENTS TO HANDLE TRAFFIC

Every possible effort will be made by the Pittsburgh Railways Company to handle the largest crowd in the history of Bruno's Island for the Grand Circuit races there next week, August 5 to 9. Cars will be run every half hour from Charleroi and Washington during the week and cars will be run from Sixth street and Penn avenue over Federal street to the Bruno's Island ferries at Ontario street. A special line will also be run from the Lake Erie depot on West Carson street to the Bruno's Island ferry. These special cars will be marked, "This car to Bruno's Island races."

The half hour service from Washington and Charleroi will begin at 9 o'clock each morning and cars will be run every minute from Sixth street and Penn via Rebecca street and Union line to Ontario street, where ample service has been provided by the driving club. Many additional cars will also be run on this line from 11:30 o'clock each morning, if the traffic warrants it.

Seven Killed in the Mines

Coroner Heffran Reports Investigation of Seventeen Deaths During July

Coroner Heffran did not have a very busy month during July. Seventeen deaths were investigated. There was a toll of seven in the mines. Two were killed by a fall of coal, two were run over by mine cars, one by a mine motor, one was electrocuted and one was crushed by a fall of slate. Only one employee of a railroad was killed, but two male trespassers and one female trespasser were run down and killed by trains. There was one suicide by shooting. Due to the floods of the month there were two drownings. One homicide case was investigated, but the party that died had been shot in Fayette county and the proceedings were certified to that county. There was one death due to a fall of a tree, a young Pittsburgh man killed while in camp near Boyce station.

TO BEGIN CAMPAIGN

Efforts to be Made to Unionize United States Steel Workers

PITTSBURGH A CENTER

Pittsburgh and Chicago are to be the centers of a nation-wide movement to organize the workmen of the steel industry, according to an announcement just made by the American Federation of Labor. Organizers are to be sent to every important mill in the country, no discrimination being shown as between mills of the United States Steel Corporation and those of independent concerns. This would probably include the Monessen and Donora mills, which are non-union.

Next Monday has been set as the day for opening the campaign. Efforts will be made to secure the attendance of the workmen at public meetings to be held in many parts of the country. In Pittsburgh the matter will be largely in the hands of the Amalgamated Association of Iron, Steel and Tin Workers, headed by President John Williams.

A circular signed by President Gompers and Frank Morrison, president and secretary respectively of the Federation, is being widely circulated. It announces that every class of labor, from the skilled work men to the lowest-paid labor in the mills, is to be taken into the union.

It is probably something more than a coincidence that the movement is launched immediately following the making of the report of the Stanley Investigating Committee. The labor leaders believe that report will be a powerful aid to their success. The pending Presidential campaign and the fact that there is a great scarcity of labor in many departments of industry are regarded as additional favorable circumstances.

Carroll's Drug Store will have Brick Ice Cream Sunday. Leave your order now. 308-13

NO WATER TO CURB

Charleroi Water Company Pleads Against Councilmanic Idea

ARE ON ANXIOUS SEAT

Representing the Charleroi Water company, H. W. Pollock, general superintendent, was present at a council Friday evening, with a plea to have local objections removed to the proposed consolidation of the Charleroi, Monessen and Donora Water companies. Realizing that the objection which council has fathered might put an end to any schemes of consolidation the company may have Superintendent Pollock elaborated to a very considerable extent on the benefits that would accrue to Charleroi should the proposed consolidation go into effect. The result was that the matter was placed in the hands of the water committee to investigate and to report to council. Charleroi's objection to the consolidation lies in an effort to have the water company furnish water, already piped, to the curb line for individual users instead of only to the middle of the street. A hearing is to be held on the consolidation matter before the State Water Supply Commission on August 20, when the local objection is to be heard.

Superintendent Pollock plead that Charleroi would be the main distributing point for the boroughs of Monessen and Donora, and that "dead ends" of all water pipes at the northern end of this borough would be abolished, the pipes to be connected up through all streets at the north side. "Dead ends" are the plugged ends of mains. In addition Mr. Pollock said, new pipes would be installed in some of the streets where there are now none.

It was stated by Superintendent Pollock that the Charleroi Water company would be willing to furnish water to the curb line, if State legislation could be secured that would compel other companies in the State to do the same.

Council will meet next Tuesday and the water committee will endeavor to have a report ready on the question of removing objections to the consolidation scheme.

TENDERNESS TO THE AGED

Nothing is more beautiful or Christ-
like in the character of the young
woman than a kind and gentle regard
for the old, says the Catholic Uni-
verse. They whose failing steps
are slowly descending the sunless
slope of age have but one consolation
as the years speed by them, and that
is the tenderness and consideration
of those on whose lives the beauties
of the morning are breaking.

Age is a season of physical infirmity
of mental retrospection, of shat-
tered dreams and earthly disappoint-
ments. No more for the old is there
a glimmer in the rolling stars no fore-
freshness in the spring, no more a
triumph in the years. The thous-
and melodies of the present sound far
off to their aged ears and its charms
are blurred in the ears and eyes whose
tears fall on the graves of old affec-
tions. Treat them gently, for their
travail and their sacrifice are yet the
possessors not only of existence in
the world in whose splendor we ex-
ult, but also for the prosperity and
happiness we thoughtlessly enjoy.

GAYNOR ON SOCIALISM.

The Philadelphia Ledger recently
sent a reporter to interview Mayor
Gaynor, of New York, about Social-
ism, and the following are a few of
the views expressed by the Mayor:

Most people think that the so-
cialistic idea or propaganda is to di-
vide all the property up into little
bits and give each one his little bit.
That is what they think Socialism is.
Instead of dividing property up
and giving each one his bit, it is that
all property and means and imple-
ments of production be massed in
the hands of the Government. The Gov-

ernment would own and run every-
thing, and we would all be employees
of the government.

"If the State owned and con-
trolled everything, and we were all
employed by the State and all paid
so much a day, and all competition
and emulation was abolished, I have
a notion that all of us would be do-
ing as little in a day as possible.
We would have no reason to try to
do so much. If we all did as little
as possible in a day's work, the total
product of society would rapidly di-
minish, and the result would be
scarcity and poverty.

"Prosperity is the highest produc-
tion the community is capable of,
consistent with the physical, moral
and mental health of its members,
accompanied by a just distribution
of the total product among the pro-
ducers. In place of Socialism bring-
ing a greater production and pros-
perity it would produce a lesser pro-
duction and poverty.

"You know that to have prosperity
we must have a product of industry
large enough to give prosperity,
namely, to give people the necessities
and luxuries of life. If everybody
be put on a level and all competition
abolished, I think the total product
would go down steadily, and that the
result would be scarcity, and poverty,
not to say lack of refinements and
luxuries. What do you think about
it?"

PICKED UP IN PASSING

Four-year-old Dick had made an im-
portant discovery that his hair would
pull out if enough force was exerted,
and was absorbed in proving the fas-
cinating find on his forelock. His sis-
ter—aged seven—noticed the proceed-
ing with round-eyed horror.

"Dickie! Dickie!" she cried, "you
mustn't do that!"

"Why?" demanded Dickie, with the
cynicism of childhood.

"Because the Bible says that all

Sarah discovered two of her off-

"Heah, yo' chillun" called out Aunt
Sarah, "what yo' all doin'?"

But just then George produced the
gift—a silver thimble—and it got
suddenly cooler in the room.

Final arrangements have been com-
pleted for the reunion of the old
Letherman school in West Bethlehem
township Thursday, August 15.
Speeches will be made by several
noted men. Professor John K. La-
cock is scheduled to discuss "The
History of the Public School in Penn-
sylvania;" George C. Donson, "The
Three S's in Education;" George W.
Dunn, "The Past and the Present." Attorney Byron E. Tombaugh will
read a history of the school. Dr.
S. N. Dague, of Houston; Dr. J. A.
Letherman, of California; Rev.
Elmer Greenlee, of Johnstown, and
others are expected to make short
addresses. Music will be furnished
by the Cokeburg band.

AMENDMENTS TO THE CONSTITUTION SUBMITTED TO THE CITIZENS OF THIS COMMONWEALTH FOR THEIR APPROVAL OR REJECTION, BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA, AND PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH, IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

Number One.

A JOINT RESOLUTION

Proposing an amendment to article nine,
section four of the Constitution of the
Commonwealth of Pennsylvania, author-
izing the State to issue bonds to the
amount of fifty millions of dollars for
the improvement of the highways of the
Commonwealth.

Section 1. Be it resolved by the Senate
and House of Representatives of the Com-
monwealth of Pennsylvania in General
Assembly met, That the following amend-
ment to the Constitution of the Common-
wealth of Pennsylvania be, and the same
is hereby proposed, in accordance with
the eighteenth article thereof:

That section four of article nine, which
reads as follows:

"Section 4. No debt shall be created by
or on behalf of the State, except to sup-
ply casual deficiencies of revenue, repel
invasion, suppress insurrection, defend the
State in war, or to pay existing debt; and
the debt created to supply deficiencies in
revenue shall never exceed, in the aggre-
gate at any one time, one million of dol-
lars," be amended so as to read as follows:

"Section 4. No debt shall be created by
or on behalf of the State except to supply
casual deficiencies of revenue, repel inva-
sion, suppress insurrection, defend the
State in war, or to pay existing debt; and
the debt created to supply deficiencies in
revenue shall never exceed, in the aggre-
gate at any one time, one million of dol-
lars; Provided, however, That the General
Assembly, irrespective of any debt, may
authorize the State to issue bonds to the
amount of fifty millions of dollars for the
purpose of improving and rebuilding the
highways of the Commonwealth."

Number Two.

A JOINT RESOLUTION

Proposing an amendment to section sev-
en, article three of the Constitution of
Pennsylvania, so as to permit special
legislation regulating labor.

Section 1. Be it resolved by the Senate
and House of Representatives of the Com-
monwealth of Pennsylvania in General
Assembly met, That the following is
proposed as an amendment to the Con-
stitution of the Commonwealth of Penn-
sylvania, in accordance with the provi-
sions of the eighteenth article thereof:

Amendment to Article Three, Section
Seven.

Section 2. Amend section seven, article
three of the Constitution of Pennsylvania,
which reads as follows:

"Section 7. The General Assembly shall
not pass any local or special law author-
izing the creation, extension, or impair-
ing of liens:

"Regulating the affairs of counties,
cities, townships, wards, boroughs, or
school districts;

PLACING LAST LINK IN NEW RAILROAD TO WEST VIRGINIA COAL FIELD

NOVEL PLACING OF SPAN CAUSES UNIVERSAL TALK

Engineering Feat at New Geneva Regarded as Remarkable—Barge to Be Used at Brownsville Bridges

ROAD TO CHARLESTON

Because of its being practically the first work of the kind ever done in the country, and because of the difficulties surmounted in its accomplishment, the feat of floating by barge the ponderous middle span of the new Monongahela railroad bridge at New Geneva into place, has attracted universal attention. That the experiment which proved so successful will be put into general use is the prediction of expert bridge engineers everywhere.

The bridge complete is 950 feet long. The middle span alone is 475 feet long. During the past several weeks the work of building the span has been going on. It was built on the end span shown at the right side of the top picture. One end rested on the derrick of the barge. When the time came the barge was simply floated across the river. So nicely had the engineers calculated that the bridge end was but a little above its proper level when it reached the opposite side of the river. Air chambers were pumped out in the barge and the span sank to its proper level. The channel was blocked only a little over 10 hours.

Probable two of the chief and most difficult operations of the experiment were constructing the barge, which is one of the largest all-steel barges ever built and transporting it up the river. Charleroi and North Charleroi people feel a peculiar interest in the operation at New Geneva for the reason that the government force, with headquarters at North Charleroi looked after the work of

The upper picture shows the span on its journey across the river. In the lower picture it is almost in place. Published by courtesy of Pittsburg Gazette Times.

its transportation. Coffor dams had to be built at Lock No. 66 and No. 7. The crew of the Steamer Slackwater attended to the work of taking the big barge through, or more strictly speaking, over these two locks.

The barge, which was the product of the American Bridge works at Ambridge will not be dismantled of its derrick, it is stated, but will be taken care of just as it is. Eventually there will be a span of a new bridge to be put across the Monongahela river at Brownsville by the Pennsylvania railroad. It is expected that the barge will be used in this work. Also a bridge will be constructed between Brownsville and West Brownsville by Fayette and Washington counties, and the barge will be called into requisition once more. If these are all the bridges along the river under course of construction at the time, the probabilities are that the barge will be dismantled, and converted into a merchandise barge, for the carrying of hardware, wire and other products of the same nature. The barge has a number of air chambers constructed in its hull, which may be pumped out or filled at will. These air chambers made possible the operation at New

Geneva. Faulty construction of any one of them, it is believed might have meant a total failure of the experiment and sent the heavy bridge span crashing to the bottom of the river, a wreck.

J. C. Bland, engineer of bridges for the Pennsylvania lines west is given credit for carrying out the new plan of putting the middle span in position. The bridge forms one link of the continuous line which is well on its way to completion between Brownsville and Buckhannon, W. Va. When the line is opened a virgin field will be opened up, a fact that the coal operators have well noted. In effect the result will be a short route through from Pittsburg to Buckhannon. From Buckhannon there is a road—the Coal and Coke—running through to Charleston, W. Va., on an easy grade, and through an excellent territory. The importance of these connections can readily be surmised. Charleston has numerous openings by railroad east and west.

The construction of the Buckhannon and Northern has proceeded from the state line south to Buckhannon, in spite of legal difficulties, until it is now almost completed. Its cost will

approximate \$2,500,000. The bridge over the Monongahela entailed an expenditure of \$320,000 and the center span put into place cost \$50,000.

AMONG THE THEATRES

THE PALACE—CHARLEROI

One of the best pictures ever presented at the Palace Theatre, and everybody knows it has had some exceptionally good ones, was shown on Monday night of this week. The name of the picture was "Rock of Ages." It was produced by the Vitagraph people, with the scenes laid by the seaside. A woman loves a sailor lad. On a trip to sea he loses his life and his body is washed ashore. She plants a cross manumured by her own hands at his grave. Her handiwork attracts a noted sculptor who persuades her to enter a studio. She comes in touch with the great wicked world, and her rumors reach her father, who refuses her admittance to her home when she returns broken in health. To prove herself she goes to work among the poor and in nursing a typhoid fever patient, she contracts the disease. In delirium she wanders through a driving rain to the church door. Unable to gain admittance she wanders along the seaside to the cross she had placed for her lover. Torrential rains pour down from the heavens and the tide rises. The scene closed with the young woman hanging about an arm of the cross, her spirit gone, and the tide enveloping her.

As usual the Pathe weekly was an entertaining feature on Wednesday, showing events occurring over this week were: "The Understudy," "The Thief" and "The Ranger's Reward," "The String of Beads" and "The Empty Grave."

THE COYLE—CHARLEROI

This might easily be considered a feature week at the Coyle, where there were unusual motion pictures shown. Probably the most enjoyed picture of the entire week was "Winning the Latonia Derby." An Imp film, this two reel photoplay production was given on Wednesday night, and good sized crowds witnessed it. The picture was gorgeously spectacular, replete with thrilling situations, with an ingenious plot interwoven.

Another unusually strong picture was "The Players." Florence Lawrence, one of the most noted actresses for a season with the Vitagraph film producers, was in the leading role. The old, old story of love was told, with the principals as members of a theatrical troupe. Comical mixups put spice to the drama. Holding the boards with "The Players" Thursday night was the film, "Young Wild West Trapping a Tricky Rustler." In this the hero rescued his sweetheart from a perilous situation, in which a cattle rustling campaign and a lively race to catch the thieves formed a thrilling and masterful picture.

THE STAR—CHARLEROI

With a beautiful love story and a suffragette parade as the basis, an unusual picture was presented at the Star theatre on Monday of this week under the title "Votes for Women." It was a Reliance film in two reels and was of such quality as to make it one of the finest presentations of the season.

"The Colonel's Peril," a brilliant military drama produced by the Bison film company proved an exceptionally interesting attraction. It was produced on Thursday. A tale of love, at first opposed by the young man's father and a hard battle in which the young man saves his father from death, with the climax in a

COLLAPSES WHEN SHE ENTERS JAIL

Charged with threatening to kill her husband, Mike Fliesak, Mrs. Lena Fliesak of California, was taken to the county jail Friday to await the action of the August grand jury, she being unable to furnish the \$100 bail required. Upon reaching the jail Mrs. Fliesak created a scene, weeping and screaming and finally collapsing on the office floor. When she was revived the woman was so weak that it was necessary to carry her up the one flight of stairs to the woman's department of the jail.

Mrs. Fliesak is the woman who a few days ago created a real sensation at California by starting to wade into the swollen river with the apparent intention of drowning herself. Her action was said to have been precipitated by the refusal of a boarder in her home to run off with her after all the arrangements had been made for the elopement.

It is charged that since her failure to elope and her unsuccessful attempt at self destruction she has been exceedingly bitter against her husband and has threatened his life.

CHURCH LEAGUE SCHEDULE STRONG FOR NEXT WEEK

The third game of this week was postponed by bad weather Friday night. It was to have been played between the Methodists and Baptists. Good games are promised the coming week. The league season will not last so very much longer. Consequently, the fight for first place is growing warmer.

On Monday of next week the First Presbyterians and Christians are scheduled to fight it out. A victory by the First Presbyterians will put them in first place. If they are beaten the Catholics will go in first. Tuesday the Washington Avenues and Methodists play, and Wednesday the postponed game between the First Presbyterians and the Washington Avenues will be decided. Thursday, the Baptists and Catholics will fight it out and Friday the Lutherans and Episcopalians will play.

A game between the Episcopalians and Christians has been awarded to the Christians, changing the standing.

COLLEGE MAN

WINS HEIRESS

AT WASHINGTON

Just 17 days after entering her twenty-second year and receiving her share of the millions left by her father, Miss Florence Elizabeth Iseman, daughter of the late David Iseman, oil king and banker of Washington, became the bride Friday night of Warren C. Burchinal, a sophomore at Washington-Jefferson College and the football cheer leader.

Miss Iseman and Mr. Burchinal, who is 22 years old and the son of H. A. Burchinal of Uniontown, Pa., were married at the magnificent Iseman home by Rev. Dr. Matthew Ruth-erford, teacher of Bible in Washington and Jefferson College and pastor of the Third Presbyterian Church of Washington. The wedding was a quiet one.

Miss Iseman was one of the most popular young women of Washington. She attended Washington Seminary and later went to the Bennett School, Millbrook-on-Hudson, N. Y., where she graduated in 1909. Following her graduation there she went to Europe, where she studied in Italy, France and Switzerland, returning to her home in Washington in July, 1911.

It was at a football game that she first saw Warren Burchinal. Burchinal was a cheer leader and stood before the student body at the games and brought out the college yell. Miss Iseman first met Burchinal early last October.

TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing

down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter."—Mrs. CASIUS LLOYD, New Moorefield, Clark Co., Ohio.

Read What This Woman Says:

South Williamstown, Mass.—"Lydia E. Pinkham's Vegetable Compound certainly has done a great deal for me. Before taking it I suffered with headache and pains in my side. I was very irregular and I had a bad female weakness, especially after periods. I was always tired, so I thought I would try your medicine. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I felt so much better that I got another and now I am a well woman. I wish more women would take your medicine. I have told my friends about it."—Mrs. ROBERT COLE, Box 45, South Williamstown, Mass.
